Active learning template basic concept legal responsibilities

2170 words - 9 pages Rene Garcia Jr ATI January 19, 2019 Care continuity: Interventions Independence Promotion (RN QSEN - Patient-centred Care, Active Learning Template - Basic Concept, RM CH RN 7.0 Chp 7) - Groups that are associated to get the necessary change in the community are more powerful than a nurse who works independently with an individual - Community associations are essential to improve and maintain healthy communities. Community health nurses should facilitate community partnerships. - Characteristics of successful partnerships have shared power, shared goals, integrity, flexibility and negotiation skills. Crisis management: Crisis intervention for intimate partner abuse (RM MH RN 10.0 Chp 29, Active Learning Template - Basic Concept, RN QSEN - Security) - Crisis intervention is designed to provide quick assistance to individuals or groups that have an urgent need. The initial task of the nurse is to promote a sense of security by evaluating the potential of the client for suicide or murder - A crisis is a sharp event, limited by time (usually it takes 4-6 weeks) during which a client experiences an emotional response that cannot be managed with normal customer coping mechanisms - Everyone experiences crisis. A crisis is not pathological, but it represents a struggle for balance and adaptation. Eye disorders: Assess a customer's understanding of the elimination of cataracts (RM AMS RN 10.0 Chp 12, RN QSEN - Patient-centered care, Active Learning Template - Therapeutic Procedure) - A cataract is an opacity in the goal of an eye that impairs vision. - The common cause of cataracts is injury caused by age, traumatic injury or by penetration or by foreign body, Toxic chemicals such as long-term use of corticosteroids, beta blockers, meiotic medications. - It is generally associated with diabetes mellitus, hypoparathyroidism, Down syndrome and chronic exposure of sunlight - Falls can be determined when examining the lens using using Ophthalmoscope Installation Protocols: Discovering a Medication Error (Active Learning Template - Basic Concept, RM Leadership 7.0 ChP. 5) Provide data for performance improvement studies in relation to the incidence of client injuries and Errors related to care. - Errors in the workplace should be archived when medication errors, procedural errors / treatment, needle puncture, client's falls, visitor / volunteer, client threats or staff, and loss of goods - - The nurse must guarantee the security of the value client. If a client is admitted to the center and does not have a present relative, make sure that valuable clients according to the pollication of the center. Management of customer service: Planning a quality control audit (RM Leadership 7.0 ChP. 1, Active Learning Template - Basic Concept) - Quality improvement is the process used to identify and solve Performance deficiencies. Includes performance measure against a set of predetermined standards. - There are different types of audits as audits of structure, Audi... Templates of Active Learning Therapeutic procedure for basic concept name of the concept - Capital of revision - Active Template of Learning: Related Content (E., Delegation, Levels of Prevention, Executives Adventure) Underlying Principles Nursing Interventions HERE? When? Why? How? Discussion of nursing in the obtaining of informed consent 4 - 4 - Understanding the laws that govern the practice of nursing help nurses to protect the rights of customers and reduce the risk of responsibility for each other. -The nurses are responsible for practicing the disease among the limits of the law to protect themselves from responsibility; defend the rights of customers; Provide care that is inside the scope of the practice the nurse; discern the responsibilities of the nurse in relation to the responsibilities of other members of the health team; and provide safe and competent care in accordance with the standards of care. - Professional negligence is the failure of a person who has vocational training to act in a prudent manner. - The rights of believers are legal privileges or powers that clients have when they receive medical care services. - People who use the services of a health care institution retain their rights as individuals and citizens. - The American Hospitals Association identifies the rights of clients in healthcare settings. -Facilities participating in Medicare programs also follow the Resident Rights statutes that govern their operation. - Tourists must ensure that clients understand their rights and must protect their clients' rights. -Regardless of the client's age, nursing needs or health environment, the basic principles are the same. The client has the right to: -Stick to the aspects of attention to be active in the decision-making process. -Accept, reject or request modification of the care plan. -Receive care from competent people who treat the client with respect. Please complete the following typical PDF attachments are 4 templates for that. Management Concepts - (1) Management of Customer Care: Identify Leadership Styles (Active Learning Template - Basic Concept), Confidentiality / Information Security - (2) Professional Responsibilities: Assessment of the Understanding of the Confidentiality Teaching Staff (Active Learning Template - Basic Concept) Setting priorities - (3) Managing Client Care: Prioritizing Care for Multiple Clients (Active Learning Template - Basic Concept,) Performance Improvement (Quality Improvement) - (4) Managing Client Care: Identifying the Steps of Progressive Discipline (Active Learning Template - Basic Concept,) 2 years ago11.06.202 040Answer (1) Prof Bila ShakaChatRequest the answer to years ago
